

Paediatric Epilepsy Training

Level 3 Course
9-10 November 2009, Edinburgh

GENERAL INFORMATION

Paediatric Epilepsy Training Level 3 has been designed primarily for paediatric neurologists but would also be relevant to paediatricians who are providing tertiary epilepsy services.

The PET3 courses will aim to cover the whole spectrum of childhood epilepsy over a 4 year period. This fourth course will be a series of updates, controversies and workshops covering the themes of: seizure semiology, co-morbidities of the epilepsies and progressive epilepsies.

As well as didactic lectures from an eminent international faculty, there will be two formal debates on controversial issues and small group workshops. The emphasis of the meeting will be on discussion and participation of delegates.

IS THIS COURSE SUITABLE FOR ME?

This course provides CPD points for Consultant Paediatric Neurologists and is therefore appropriate for:

- 1) Consultant Paediatric Neurologists
- 2) SpRs in Paediatric Neurology in their final year of training
- 3) Consultants responsible for tertiary level care of children with epilepsy

Please see www.bpna.org.uk/pet for information on the Level 1 and Level 2 courses, which may be more appropriate.
