Evelina London Children’s Hospital (ELCH)
Consultant in Paediatric Neurology with an interest in Neuromuscular Disorders
From £74,504 per annum excluding London increment
Full Time Permanent Post

This is an excellent opportunity to join a first class team in an active and progressive central London teaching hospital environment with extensive transport links. Guy’s and St Thomas’ NHS Foundation Trust is made up of two of London’s best known teaching hospitals and is part of KHP.

This job is within the Paediatric Neurosciences department, one of the largest such departments in Europe, and it is the regional centre for Paediatric Neurology for South Thames. This is full time clinical post with scope to include research in the future should this be appropriate.

This post will join the two existing Paediatric Neurology consultants with a special interest in Neuromuscular Disorders, as well as sixteen other Paediatric Neurosciences consultants with special interests in a variety of other tertiary subspecialties.

The majority of the clinical activity will take place in Evelina London Children’s Hospital at St Thomas’ Hospital in Waterloo, but there is also an active outreach network to which the postholder will contribute. The incumbent will participate in the paediatric neurology on-call rota for ELCH on a 1 week in 9 basis. For this on call week all elective activity will be cancelled.

You must be fully registered with the GMC and hold Licence to Practice and be on the Specialist Register, or within six months of attaining your CCT or equivalent at interview stage.

The postholder will have regular contact with vulnerable adults and/or children (0-18 years) and therefore this post is subject to the Rehabilitation of Offenders Act (Exceptions Order) 1975 and as such it will be necessary for a submission for Disclosure to be made to the Criminal Records Bureau to check for any previous criminal convictions.

For an informal discussion regarding this post please contact either: Charlie Fairhurst, Head of Service for Paediatric Neurosciences, telephone 0207 118 7118 ext 84003; charlie.fairhurst@gstt.nhs.uk or Elizabeth Wraige, Deputy Head of Service for Paediatric Neurosciences, telephone 0207 118 7118 ext 84006; elizabeth.wraige@gstt.nhs.uk
